Released: May 15, 2017

## WIRELINE COMPETITION BUREAU PUBLICLY RELEASES LISTS OF COUNTIES WHERE LOWER SPEED TDM-BASED BUSINESS DATA SERVICES ARE DEEMED COMPETITIVE, NON-COMPETITIVE, OR GRANDFATHERED

WC Docket Nos. 16-143, 05-25; RM-10593

By this Public Notice, the Wireline Competition Bureau (Bureau) announces the public release of lists of those counties where lower speed DS1 and DS3 end user channel terminations and certain other lower speed TDM-based business data services are deemed competitive, non-competitive, or grandfathered pursuant to the *Business Data Services Order*.<sup>1</sup> This information is available on the Commission's Internet website at <https://www.fcc.gov/bds-county-lists>.

On April 28, 2017, the Bureau issued a public notice proposing to release these lists and providing affected parties an opportunity to object.<sup>2</sup> As the Bureau explained, the identification of a county as competitive, non-competitive, or grandfathered will in some instances indirectly reveal the approximate number of locations a competitive provider is capable of serving, information which is competitively sensitive and which is derived from information that has been designated as highly confidential.<sup>3</sup> No objections were submitted to the Commission. Indeed, prior to the issuance of the public notice, some parties sought public release of the information.<sup>4</sup>

The absence of objection supports public release of the county lists, which is necessary for implementation of the competitive market test mandated by the *Business Data Services Order*. We find that the benefits of public release of the county lists outweigh any slight competitive harm that might result and that release of this information is in the public interest.

This action is taken pursuant to sections 4(i), 5, 201-205, 211, 215, 218, 219, 303(r), and 332 of the Communications Act of 1934, as amended, 47 U.S.C. §§ 154(i), 155, 201-205, 211, 215, 218, 219,

---
